The International Conference on Sustainable Engineering and Digital Innovation (ICSEDI'26)

10-12 Feb 2026, Muscat, Oman

CALL FOR PAPERS

ICSEDI'26

The International Conference on Sustainable Engineering and Digital Innovation (ICSEDI'26) is an IEEE conference for the exchange of ideas, foundational theories, design methodologies, and cutting-edge technologies. This conference brings together leading experts, researchers, and industry practitioners from diverse fields to discuss the latest advancements in sustainable engineering and digital transformation. ICSEDI covers a broad spectrum of topics across engineering, environmental sciences, information and communication technologies (ICT), and computer sciences. It serves as a platform for fostering cross-disciplinary collaboration that is essential in addressing global challenges. Accepted papers will be published in the conference proceedings, and the presented papers will also be indexed in the IEEE Xplore Digital Library and indexed in SCOPUS.

PUBLICATIONS

Accepted papers will be published in the conference's electronic proceedings and will be submitted for inclusion in IEEE Xplore, subject to meeting IEEE Xplore's scope and quality criteria.

THE ICSEDI '26 TRACKS :

-  Track 1: Sustainable Engineering, Renewable Energy, and System Integration
-  Track 2: Digital innovation, Smart Power, and Communication Systems
-  Track 3: Next-Gen Cities, Sustainability and Smart Urban Planning
-  Track 4: Climate Change, Environment and Resource Management
